Universal Acceptance Steering Group

## Help Wanted... Technical Document Translation

Application Deadline: **23:00 UTC 26 February 2016**

Send Applications to: [don.hollander@icann.org](mailto:don.hollander@icann.org)

### Background

Universal Acceptance is a foundational requirement for a truly multilingual Internet, one in which users around the world can navigate entirely in local languages. It is also the key to unlocking the potential of new generic top-level domains (gTLDs) to foster competition, consumer choice and innovation in the domain name industry. To achieve Universal Acceptance, Internet applications and systems must treat all TLDs in a consistent manner, including new gTLDs and internationalized TLDs. Specifically, they must accept, validate, store, process and display all domain names.

The Universal Acceptance Steering Group is a community-based team working to share this vision for the Internet of the future with those who construct this space: coders. The group's primary objective is to help software developers and website owners understand how to update their systems to keep pace with an evolving domain name system (DNS).

### The Work

The work is to take approved technical documents prepared in English and to translate them (including consistent formatting) to one or more of the following languages as needed from time to time:

- Spanish
- French
- Russian
- Chinese
- Arabic
- Portuguese

The current list of documents (some still in draft form) can be found <https://community.icann.org/display/TUA/Documents>

You will become an approved ICANN vendor.

Universal Acceptance

The work will be performed as an independent contractor.

### **Desired Characteristics**

- You must be aware of technical Internet issues and must be fluent in English and one or more languages.
- Applicants can be from an individual, group of individuals, or organization.
- Ability to translate into other languages should be advised.

### **Next Steps**

Please provide us with:

- A brief statement of interest and why you want to do this work and why we should want you to do this work.
- An indication of expected turnaround time.
